Task 1:

Practice your spellings of your common exception words in your best cursive handwriting.

Remember: look, cover, write, check.

Task 2:

Write 5 different sentences using your common exception words.

Task 3:

Play TT Rockstars to improve your recall of your multiplication facts.

Can you improve your time per second answered?

There is also handwriting for some of the common exception words.

YEAR 3 HOMEWORK - Pack 11

Handwriting practice lines for Year 3 homework. The page contains 10 sets of horizontal lines, each consisting of a solid top line, a dashed midline, and a solid bottom line, providing a guide for letter height and placement.

Task 4:

Play Spelling Shed to practice your spellings set by your teacher.

All the children have been given accounts for **Spelling Shed** to access at school and at home (**log-in details are stuck inside the children's reading records**). They will be set their weekly spellings using this platform, which they can practice at home ready for their weekly spelling test. We look forward to seeing how they get on with this exciting, new programme.

Plants _____

Animals _____

There are ways in which plants and animals are similar and ways in which they are different. Can you think of any of these ways? Write your ideas in the table.

Ways in Which Plants and Animals Are Similar	Ways in Which Plants and Animals Are Different

YEAR 3 HOMEWORK - Pack 11- Science

Plants and animals grow, move and reproduce (make another living thing of the same kind). All living things need water, air and food. They are suited to their environment (the place that they live in). Plants make their own food from a green substance called chlorophyll, which is in their leaves. This turns sunlight into energy. Animals depend on other living things (plants or other animals) for their food. Plants reproduce by making seeds. Animals either lay eggs that hatch into their young, or they give birth to their live young.

Write these features of plants and animals in the table. Some features will go in both columns.

have chlorophyll	grow	move	make seeds
make food	reproduce	need food	need air
lay eggs or have live young

ROMAN COIN SURPRISE FOR MRS SHIP

Reported by Owen Butcher, Media Correspondent, Glastonbury

Nine Roman coins have been discovered in the Somerset garden of School Teacher Mrs Ship and are now to be put on public display.

It was last year when Sally Ship, a 46-year-old secondary school art teacher from Somerset, decided to have an extension built on her home. 'We'd outgrown our house but couldn't find another one as nice,' she explained. 'Instead of moving, we decided to extend.' The builders began work in March 2014 and a few days later, Sally made a truly incredible find. 'I remember watching the builders dig up my lawn. As I was giving out their cups of coffee, I noticed something in the hole they were digging; I had a feeling it was something special.'

'Sally asked me to stop working because I was about to disturb whatever she'd seen. I hadn't even spotted them,' commented builder Karl Webb. 'Finding treasure is a first for me!' Mrs Ship told reporters how Karl had helped her climb into the hole to have a closer look. 'I noticed another one and then another one,' she added. 'I was shaking. I knew this was something important so I immediately reported the find and told the builders they could go home until I'd found out what it was. I slept in the garden all night, guarding what I believed to be something very precious. My daughter thought I was crazy!'

'I have to be honest, I thought they were some old, worthless bits of metal. When Mum said she was camping outside to guard her find, I thought she was totally overreacting,' commented 18-year-old Jenny Ship. 'Mum and I love watching archaeology programmes. To think we had a little piece of

history in our garden, well, it's unbelievable really.' Sally and Jenny have recently discovered that the nine coins are Roman and a mixture of bronze and silver. 'Mum and I were excited to find out that the coins were really old. It gets you thinking about why they were there. Had they been dropped by accident? What had they bought?'

Mrs Ship explained that since her fantastic find, she has joined a local metal detectors group. 'It's great fun! After all, you never know what you're going to find.'

Further excavations took place at Mrs Ship's property but no other finds were made. It is yet to be decided where the coins will be put on public display.

The treasure was discovered in a garden in Somerset.
